Neges Heddwch ac Ewyllys Da Peace and Goodwill Message

The Climate Emergency

The clock is ticking
And our world is on fire.
It's time to wake up.

Floods, fires, starvation, and poverty,
this is our reality.

Migration, conflict and displacement,
is this what our future holds? .

Why are we still listening
to the blah, blah, blah of those in power?

Why do we still believe
that we can buy our way out?

It's time to wake up.
It's time to make a change.

We can't carry on like this.
We have the privilege of choice,
to slow down, to lessen our use,
to think.
to stop overconsumption.

Because we won't be the first to suffer.
And so here's our promise
to change the way we live
and to call for a systemic change
for the sake of those in the Global South.
For the sake of a future.

We'll begin with ourselves
by making small changes
And putting pressure on corporations and politicians
to make the big changes.

This is our promise.
What's yours?
It's time to wake up.
